PASSION ACROSS 11 WHEEL BRANDS

WELCOME AND THANK YOU FOR JOINING THE ELITE FAMILY!

Elite Wheel Warehouse was founded in 2010 as a wheel and tire distribution center serving the local area. Since then, we have become the largest wheel and tire distributor in the southeastern United States.

In the past 10+ years, Elite has launched 11 aftermarket automotive brands, catering to multiple markets. We strive to lead and innovate in our industry, fueled by teamwork, integrity, and family values. We are truly grateful for your support, without which we could not have achieved this success.

We would like to express our sincere thanks to you for your partnership and loyalty. From our family to yours, we look forward to continuing to grow and build together in the future.

Ed Milani

CEO & FOUNDER
ELITE WHEEL DISTRIBUTORS, INC.

HEADQUARTERS & LOCATIONS

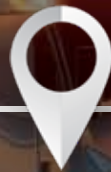

Starting as a distribution channel for multiple wheel brands, we have evolved into a team of young, passionate, and inspired customization enthusiasts. Our Tampa-based showroom and headquarters offer the latest manufacturing processes and technology, and our team of 100+ dedicated representatives and associates work on premises that span over 150,000 sq ft. In addition, our five locations allow us to reach customers nationwide, with some of the fastest turnaround times in the industry.

AMANI FORGED

A close-up, angled view of a multi-spoke wheel with a red and silver finish. The spokes are arranged in a complex, multi-spoke pattern. The center of the wheel features a circular logo with the letters 'AF' and 'AMANI FORGED' around it. The wheel is set against a dark background.

PASSION. PRECISION. FAMILY.

We take great pride in our creations. Amani Forged wheels are renowned for their high-end design and unparalleled quality. Each wheel is manufactured, finished, and assembled across two of our facilities located right here in the U.S.A.

Amani Forged offers 2 and 3-piece custom forged wheels, built with intricate attention to detail for any vehicle application. Each wheel is fully customized to ensure a perfect fit for your vehicle. We provide in-house design and engineering services, as well as dedicated fitment support assigned to each build.

ORIGINAL

22"-32"

The Original Series utilizes a standard, convex style forging to allow for maximum lip size and brake clearance. Our Original Forging is almost a completely flat faced, which allows for fine detail. This is our most commonly used forging, the profile most people go with.

ROUND

22"-24"

The Round Series Dolor sit amet, consectetur adipiscing elit. Aliquam a dolor cursus, sollicitudin magna ullamcorper, rhoncus augue.

CONCAVE

22"-26"

The Concave Series offers multiple styles and concavity profiles. Our traditional-style concave wheel utilizes forgings with a leg that pushes the face of the wheel out, sitting the leg of the forging on the lip of the wheel.

AXL

20"-26"

The AXL Series speaks to the high-end forged market. This series utilizes a special forging that extends the face of the wheel out, sitting on the edge of the lip – for a unique, modern, and luxurious look.

OFF-ROAD

22"-30"

The Off-Road Series is a one-piece wheel, built using an American-made mono-block forging, available in sizes 22-30". The Off-Road Series takes some of our hottest designs from the Original Forged Series, turning them into a mono-block – work of art.

DUALLY

24"-30"

The Dually Series uses the same styling as a traditional dually wheel but levels-up a notch by offering larger sizes, custom designs, and custom finishes. Our dually wheels are built to directly bolt on without the addition of an adaptor.

GET XF. GET OFF-ROAD.

XF made a remarkable entry into the off-road market with its superior designs and high-quality wheels. We aim to lead and innovate in the off-road wheel segment by incorporating state-of-the-art technology and design features. XF wheels are manufactured using a low-pressure casting process and flow-formed technology, providing a lightweight yet stronger alternative to traditional cast wheels.

TRAILBLAZING OFF-ROAD WHEELS

Vortek wheels embody sharp industrial designs that are tailored for true off-road enthusiasts. The off-road line is comprised of four distinct series: Defense, Precision, Titan, and Trailhawk - each meticulously crafted to meet the demands of the avid off-roader. Vortek's designs capture the very essence of offroading, featuring exposed beadlocks, diamond cuts, sharp lines, and concave wheels that set the design apart from other brands - elevating as the top choice for adventurous trailblazers. Vortek wheels are cast and manufactured in the USA, specially designed for all types of adventures and terrains. Drive harder and blaze the trail with Vortek Off-road Wheels, think rugged - with detail.

The background features a stylized, low-angle view of a city street with tall buildings, rendered in a light gray, almost white, tone. Overlaid on this are several large, diagonal, semi-transparent red shapes. These shapes contain detailed, dark red and black illustrations of car wheels and suspension components, including a prominent multi-spoke wheel in the bottom right corner. The overall aesthetic is modern and automotive.
